

GREM referral program

Monetize your network

The GREM referral program is a two-sided referral program based on **inviting new users** to the platform.

Each registered user can join the referral program and create his own referral links in their personal account in the "Referral Program" section.

10%

A user who attracts referrals **receives up to 10%** of the income that the user he invited will bring to the GREM platform through completed transactions within our system.

Important! Referrals are forever assigned to the user who referred them, and receives income from their transactions on the platform on an ongoing basis.

Multi-level system

Your financial reward is not limited to direct invitations only.

If your referrals invite their users, you also receive a percentage of their deals!

This allows you to build a large partner network and receive excellent passive income.

Invite and earn:

When you invite a new broker, developer, or any other real estate market participant and they complete verification or add a property, you receive your fixed reward for these actions.

Earn from deals:

You receive a percentage from absolutely all target actions (e.g., property sales, investments, token purchases) performed by your invited users!

Reward System

User role / action in the system (Whom you invited)	Your Reward (Level I)	Your Reward (Level II)	Your Reward (Level III)	Your Reward (Level IV)
New Broker Registration *New user on the platform with secondary verification and added photo	\$5 for each new user	3\$ for each new user	2\$ for each new user	1\$ for each new user
